Join the first generation of the Chivas USA's Soccer Camps

Player development is one of the fundamental objectives of Club Deportivo Guadalajara. Some of the club's, and even Mexico's, greatest players have come out of the team's youth system and soccer academies. This system is based on the principles of aggressive soccer that has been practiced by the organization during its 100-year history.

Now, with Chivas USA, the same player development system that has brought so much success to Club Deportivo Guadalajara, has arrived to the US. The first Club Deportivo Chivas USA Soccer Camp in Northern California will be at Sonoma State University in August.

During this four day camp with Z Soccer and Chivas USA, youth players will learn the basic techniques, tactics and compete in daily tournaments. The program will be similar to the program used in the Chivas Guadalajara Youth Development Program.
